

## Table of Contents

<b>Evaluation of PCR method for diagnosis of Group B <i>Streptococcus</i> carriage in pregnant women</b>	<b>I</b>
Bakhtiari R*, Soltan Dallal MM, Zaemi Yazdi J, Fallah J, Amir Mozaffari N, Pourmand MR, Hajikhani S.	
<b>The Effect of essential oil of <i>Matricaria chamomilla</i> L. on biofilm formation of <i>Pseudomonas aeruginosa</i></b>	<b>II</b>
Saderi H, Owlia P*, Hashemi SR	
<b>Application of PCR for detection of <i>Vibrio cholerae</i> using primers targeted against the gene of outer membrane protein <i>ompW</i> and comparison with conventional methods</b>	<b>III</b>
Khosravi A*, Abbasi E, Hashemi A, Eskandari M, Kamaee F	
<b>Genotyping of <i>Helicobacter pylori</i> strains isolated from patients with NUD, DU, GU and GC by RAPD-PCR</b>	<b>IV</b>
Ghasemi A, Shirazi MH, Pourmand MR*, Zaemi Yazdi J, Sadeghifard, Bagherzadeh S, Aghamiri S.	
<b>Evaluation of wide broad spectrum antibiotic resistance of <i>E. coli</i> and <i>Klebsiella pneumonia</i></b>	<b>V</b>
Masjedan F, Valehi F, Talebi A, Rastegar Lari A*	
<b>The level of antibody against <i>Chlamydia trachomatis</i> among patients with genital infections in Mashhad</b>	<b>VI</b>
Naderinasab M*, Genaat J, Rashed T, Ghazvini K	
<b>Study of spontaneous bacterial peritonitis etiologic agents and determination of their antibiotic resistance pattern</b>	<b>VII</b>
Mirnejad R*, Fallahi SH, Jeddi F, Kiani J, Taslimi R	
<b>Antiviral effect assay of twenty five species of various medicinal plants families in Iran</b>	<b>VIII</b>
Monavari HR, Hamkar R*, Norooz-Babaei Z, Adibi L, Noroozi M, Ziaei A	
<b>Correlation of high viral BK load in the urine samples of patients with graft-versus-host with haemorrhagic infectious diseases of bladder after hematopoietic stem cell transplantation</b>	<b>IX</b>
Kokhaei P, Jazayeri Moghadas A*, Sadighimoghadam B	
<b>Report on Clonal Dissemination of a New <i>Vibrio cholerae</i> Serotype O1 Biotype El Tor Strain in Kurdistan in Summer of 2007</b>	<b>X</b>
Bakhshi B, Naseri H, Zahraei M, Afshani MT, Pourshafie MR*
